Professional Summary

Dynamic Marketing and Communications Specialist and Full Stack Developer leveraging over 10 years of administrative excellence to provide organized, deadline-driven solutions in technical environments. Passionate educator and technical problem solver dedicated to translating complex coding concepts into high-impact marketing strategies and accessible educational content.

Technical Proficiency

- **Web Development:** HTML5, CSS3, JavaScript (ES6+), React, React Router, Vite, Tailwind CSS, Node.js/Express.
- **Mobile & Accessibility:** Capacitor (Android), offline-first apps, WCAG AA, ADA-compliant touch design.
- **CMS & Builders:** WordPress, Oxygen Builder, Elementor.
- **Design & UI/UX:** Figma, Adobe Creative Suite (Photoshop, Illustrator), Canva.
- **Software & DevOps:** Docker, MySQL, VS Code, Visual Studio, Git/GitHub.
- **Administrative Tech:** Microsoft 365, Google Workspace, Microsoft Teams.

Featured Project

INFINITY SCIENCE CENTER KIOSK | Project Manager & Lead Developer
2026 | mscoding.org/ISCProject

- **Project Leadership:** Led a five-person Mississippi Coding Academies team to design, build and install an interactive spaceflight timeline kiosk at INFINITY Science Center, the official visitor center for NASA’s John C. Stennis Space Center.
- **Offline Kiosk Engineering:** Built the app in React, Vite and Tailwind CSS and packaged it with Capacitor as an Android app so a 43" touchscreen runs fully offline.
- **Staff Content Tools:** Delivered PIN-protected admin editors with backup and restore, so museum staff manage 5 eras, 78 events, 270+ quiz questions and media without a developer.
- **Accessible Design:** Made accessibility a build requirement with automated WCAG AA contrast checks, ADA reach-range controls, read-aloud, adjustable text size and contrast, and QR code certificates visitors claim on their phones.

Professional Experience

MISSISSIPPI CODING ACADEMIES | NeXTStack Instructor
2026 – Present

- **Technical Instruction:** Deliver comprehensive lectures and hands-on demonstrations on fundamental full-stack concepts, including HTML5, CSS3, and JavaScript (ES6+).
- **Algorithmic Problem Solving:** Facilitate learner milestones by engineering debugging workflows, guiding technical troubleshooting, and minimizing onboarding friction.
- **Curriculum Architecture:** Design targeted lesson plans, progressive coding challenges, and production-ready exercises to adapt to emerging web development standards.
- **Student Mentorship:** Provide individualized logic counseling and continuous project reviews, driving high completion rates and preparing learners for industry roles.

MISSISSIPPI CODING ACADEMIES | Marketing and Communications Specialist
2025 – Present

- **Full-Stack Web Development:** Lead the development and technical maintenance of the digital footprint using WordPress and advanced builders to ensure 100% mobile responsiveness.
- **Technical Content Strategy:** Translate complex programming curricula (including HTML, CSS, and JavaScript) into accessible marketing content for prospective students and partners.
- **Workflow Optimization:** Modernize development workflows by integrating containerization tools like Docker and managing MySQL databases for student recruitment initiatives.
- **UI/UX & Graphic Design:** Spearhead end-to-end design using Adobe Creative Suite and Figma to produce high-fidelity prototypes and brand assets.

MISSISSIPPI CODING ACADEMIES | Instructor | 2024 – Present

- **Technical Instruction:** Teach fundamental programming concepts in HTML, CSS, and JavaScript to beginners.
- **Problem Solving:** Facilitate student success by debugging code and guiding algorithmic problem-solving.
- **Curriculum Development:** Collaborate with senior instructors to refine curriculum and adapt hands-on projects.

WCBI-TV/CHARTLOCAL | Digital Operations Specialist | 2022 – 2023

- **Campaign Management:** Managed 100+ concurrent digital sales campaigns and monitored KPIs to drive data-informed decisions.
- **List Growth:** Designed targeted email strategies that grew a client marketing list by over 4,000 contacts.
- **Market Expansion:** Executed geofencing and lead generation campaigns, enabling business expansion throughout Mississippi.

GRAHAM ROOFING, INC. | Marketing and Event Coordinator | 2021 – 2022

- **Administrative Operations:** Oversaw the company's 24-line mobile phone account, managing upgrades, troubleshooting, and monthly billing.
- **Brand Management:** Designed and maintained all marketing materials and social media accounts to ensure brand alignment.

Education & Certifications

- **Certificate: Junior Full Stack Developer** | Mississippi Coding Academies | 2024
- **B.S. Interdisciplinary Studies (Business/Business Tech)** | Mississippi State University | 2020
- **A.A.S. Office Systems Technology** | East Central Community College | 2009
